Cardston Rotary Visits Local Outpost

Basketball fans were treated to something out of the ordinary Monday night at the Basket ball game between the Jacks and the Terrible Swedes when the Jacks kicked through with a brand of ball seldom seen for more than a second or two, and for about seven or eight minutes had a comfortable seven point lead on the score boards that had the Swedes worried and furnished the fans with all the cause they needed to nearly tear down the house with their enthusiasm in seeing the local boys make the Swedes extend themselves the way they did.

The first half was just plain ball, the Swedes leading all the way through and the score at the end being 18-15. The locals had about two shots to the visitors one at the hoop, but couldn't score very regularly, and set-up after set-up went for naught. The Swedes took it easy, displayed some great ball handling, and showed that they knew their basket ball.

The second half was not very old, before the Jacks commenced to speed up, intercepting passes, musing up plays, and matching pass for pass with the visitors. The shooting of the locals was much better in this part of the game, and Kirkham, Fairbanks and Nilsson were checking pretty regularly with Turner and O'Brien helping boost the score, and never losing a chance to feed to the man at the net. The score was evened at just about half time, then the Jacks scored more and more. The Swedes called time out for a pow wow, and when they started again the Jacks scored some more. The crowd went wild with enthusiasm, and the big boys called time out again, with the Jacks seven points in the lead.

Then the game started again and the visitors forgot all about fancy ball handling, and started to play real ball. They worked in a few nice plays to score and Stoelting and Campbell were reaching over the locals heads to pound the hemp for counters. The Jacks kept up the battle, and the game ended with the visitors only three points to the good, enough how ever to win.

The best of feelings prevailed between the players, the fans received a great game for their money, and the Swedes will always be welcome in Raymond. They were high in their praise of the Jacks brand of play, and said they were amongst the best teams they had battled with in their trip.

The lineup and score was:
Swedes—Schafer 14; Campbell 7; Stoelting 10; Surface 3; Pettigrew 7. Total 41.

Jacks—O'Brien 1; Kirkham 10; Nilsson 6; Fairbanks 11; Turner 8. Total 38.

Jemp and Jones were in charge of the game.

John O'Brien's Idlers defeated the High School 25-16 in the Preliminary game.

Mrs. Ruth Finch left for Salt Lake City on Monday for medical attention. She has been unwell for a long time and is in hopes of receiving some relief and improvement from this trip.

C. W. Brewerton returned this week after a six weeks visit in Salt Lake City with members of his family there. He reports everything fine down there, and the trip apparently agreed with him as he came home 12 pounds heavier than when he left. Incidentally we have missed his cherry greening on the street.

Council Organizes For Present Year

At the Statutory meeting of the Town Council, held Monday evening, the new and re-elected members were sworn in, and the Committees for 1935 arranged as follows:

Finance—D. A. Bennett, Chairman, I. B. Roberts and Geo. E. Court.

Work and Property—I. B. Roberts, Chairman, S. I. May and Wm. Jensen.

Water Works—M. T. King, Chairman, Geo. E. Court and Wm. Jensen.

License and Police—Geo. E. Court, Chairman, S. I. May and D. A. Bennett.

Health and Relief—S. I. May, Chairman, M. T. King and Wm. Jensen.

The Health Board was organized for 1935, as follows:

The Mayor, Medical Health Officer and Town Engineer, representing the Town, and Bishop J. H. Walker, for the 3 year term; W. H. Zobel, the two year term and Mrs. T. J. O'Brien the one year term.

Mrs. T. W. Meldrum and Wm. Radd, whose term on the Library Board had expired, were asked to accept another term, and this they expressed themselves willing to do.

A special meeting was held Tuesday night, with a full quorum present, when the requisition of the School Board and the estimates of the Town for 1935 were considered and finally passed, after much deliberation and discussion. The mill rate was also struck, which will remain the same as last year, being 20 mills for Town and 11 for School purposes, within the Town, and 10 mills for School purposes outside the Town.

This ended the official business and the Council spent an hour discussing coming business, and preparing a suggested program for consideration at the future meetings.

NEWS NOTES

The school kids are all anxious for Good Friday and Easter Monday to get here now. It means another breathing spell for them.

The daughter of Mr. and Mrs. Frank Jaque, who has been ill with pneumonia, is improving nicely now, and is considered out of danger.

"MONTE CRISTO" ANSWERS CRY FOR GREAT FILM TO PLEASE ALL TASTES

Robert Donat, English "Find," and Elissa Landi Score In Reliance's Million Dollar Film—*ization of Dumas Novel*

Read and enjoyed by millions for over a century. "The Count of Monte Cristo" will be brought to the screen of the Capitol Theatre next week.

Harry M. Coetz and Edward Small have given the ageless romance a million dollar production, and the sensational young English "Find," Robert Donat, brought to America to play the title role, more than justifies the faith shown in him by Reliance Pictures, who selected him after practically every male star in Hollywood had been considered.

Young, extremely handsome, charming, and a splendid actor, Donat has everything necessary to make him and keep him the new favorite among male film stars Friday and Sat. next week.

Sugar Makers Ball Great Success

The Annual Sugar Maker's Ball in the Opera house Friday night last was the usual outstanding success, and everyone present will cherish the memory of a very pleasant evening and look forward with keen anticipation to the next one after the 1935-36 campaign.

From the time the crowd commenced gathering until past 1 a.m. there was not an idle moment, and the music of Jack Patey and his boys with their toe-tickling tunes kept the crowd old and young busy dancing when they were not eating, or enjoying the specialties and the numbers on the program. The Sunday Schools of the two wards served a delicious and satisfying lunch of Sandwiches, salad, pickles, punch, cake and ice cream.

The program consisted of a speech by Mayor "Dave" Elton Lethbridge, instrumental number, Joe McLean and Co. Chalk Talks, by E. W. Bascom, which furnished the crowd with plenty of laughs, and showed some very clever work on Earl's part "Sugar House Blues" sang to the tune of "The Bird on the Flying Trapeze," with Fritz Gehmlich and Joe McLean the crowd joining in the Chorus, Dance by Misses Rosemarie Wood and Ila Hicks, and the birth-provoking "Campaign Review," by Kay Redd, with the usual number of take offs on the employees, showing a fund of wit and originality in its makeup. With Kay's permission we are reprinting part of it with this article.

A prize wait was won by Mr. and Mrs. Bob H. Grogg, the prize being a beautiful pot plant.

Ross Gibb was Master of Ceremonies, and kept things moving orderly and with despatch all throughout the evening. T. Geo. Wood, Manager, and the other Superintendents, etc., were all on hand keeping an eye on the progress of the evening, and making everyone feel at home. All in all it was very successful evening, and everyone should be grateful, and we believe are, to the officials for providing such an evening of entertainment.

THE CAMPAIGN REVIEW
If we can find the PRICE we'll buy a broad LITCHFIELD for a GOUGH course, and then we OTTO get a good STONG mason to build us a house there—we'll place it on the CLIFF overlooking the TUCKER river, near the WOODS and we'll let MAC and BRIDE rent it.

It will have STONE WALLS and a WOODRUFF and we'll paint it WIGHT and REDD (named with GREEN. There will be an electric KITCHEN with plenty of ROGERS silverware. Two gold-FINCHES will hang in the ARCH-way, where they will HARMONize very well, and they seem to have that something about them that seems to say, "C. R. beautiful WING."

The tall slim BUTLER that stands in the hall will be dressed in the finest example of the TAYLOR's art, and the visitors can park their cars in the GAROGER on the BURBANK, near by.

We'll plant a DAISY to PEEP-in-the GRASS and have a nice WOOLLEY LAMB and some FAWNS to gambol in the GREEN. The FAWNS will have to be tied to save the DAISY.

MAC's BRIDE can have DOROTHY for NURSE to take their WAYLLEY baby for walks in the PARKS, SID's SKOW will furnish plenty of milk for the child, who will be CHRIST-

IANed by the POSTOR, and they'll COLLETT HENRY, EARL of DUSBERRY.

The FAIRBANKS of the stream will furnish an excellent place to fish for the elusive BASS-COM spring, and the first CHANCE we get we'll buy some BACON to serve with the SALMON which the COOK will fry WEL-DON and BROWN.

Ernest will furnish the guests with ORGAN music every evening for entertainment.

The LANE will have a TOLLESTRUP of PALM'n'ALDER and BOXY ELDER trees, where the BALLOU birds can build their nests, and if the trees get too large, we MEHEW them down for CARD WOOD later. There will be lots of SWEDE WILLIAMS and LILY of the valley flowers in the front yard.

Through the front windows they will be able to see the FORD VANS go RIPPON by while the TERRYers amuse themselves by barking at them. And may we warn the drivers to be sure to make the sharp TURN-ER they'll wreck on the STONES along the road. And now I'll just RENAN ACROSS to the GOUGH course and play a round there.

Jacks Put Up Stiff Battle With Swedes

Annual Meeting Of Municipality

The annual meeting of the Sugar City Municipality was held in the Town Hall on Saturday afternoon at 1 p.m., with a fair attendance of Ratepayers present, and all showing a keen interest in the affairs of the district.

The reports of the Reeve and the Secretary-Treasurer were presented, showing a good condition in the financial affairs of the district. The collections of taxes in 1934 had been 25 p.c. heavier than in 1933 and had exceeded the current levy by just about 25 p.c. An average amount of road work had been done, and the roads in the district improved over previous years, and a good balance was on hand to start the current year with.

The election of Councillors resulted in R. R. Murray being re-elected for District No. 1 near New Dayton; N. W. Peterson for District No. 4, near Welling; and J. D. Brown, for district No. 2, south of town, taking the place of R. S. Orgill who because of not holding property in the district was not eligible to act as Councillor.

NEWS NOTES

J.W. Newby, Auctioneer of Glenwood was a Raymond visitor Monday of this week.

Mrs. Kimball Anderson of Tyrell's Lake is spending a week here with Mrs. S. I. May.

The high winds on Sunday had the lights off for part of the day.

Boothe Card is able to be at work again now, but his foot is still quite sore, and he watches his step, without being told.

The meeting moved a vote of thanks to the officers for their good work of the past year.

Coming March 7-8-9 Shirley Temple in her newest picture "THE LITTLE COLONEL" with Lionel Barrymore.

A few flakes of snow fell at noon Tuesday, but it gave way to clear skies and sunshine before the day was over.

COMMUNITY AUCTION SALE SATURDAY

Raymond is staging its first Community Auction Sale Saturday, the sale being arranged by Alfred and Paxman, with J. W. Newby as Auctioneer. Bills are out, with a great list of stock, machinery and miscellaneous articles and everyone will find something listed there they would like. Read the bill over and see.

The sponsors of this sale are hoping that this will be merely the beginning of a series of sales to be held every two weeks, or even oftener if the demand justifies, so if you have anything to sell get in touch with either of these men and get your stuff listed, and if there is anything you want, see the bills, and watch for future ones and attend them to obtain it when it is put on the block.

Your presence will add to the interest of the Sale, and it will be an opportunity to turn things that you don't need into Cash, and enable you to get the things you do want and need.

Remember, Saturday, Feb. 23rd, by the Massey-Harris Warehouse at 1 p.m. Be There.

The regular monthly meeting of the local Rotary Outpost was featured Tuesday with a good-will of the Cardston Club who held their regular weekly luncheon and meeting with the local Rotarians, furnished a number of program numbers, and in addition to eight members of the Lethbridge Rotary parent Club of this Outpost, made an attendance of 45 at the luncheon and meeting.

The speaker of the day was Canon Middleton, Rector of St. Paul's Church, and Principal of St. Paul's Indian School near Cardston. His topic was "Indian Legends and Mythology and there was general regret when quitting time came, as the Canon had a wealth of first hand information to draw from, and the relating of personal experiences in contact with the Indian, his high ethics, his excellent moral code, and the picturesque background upon which the History of this proud and haughty race stands was a subject full of interest to every listener in the building.

With "Ves" Low leading and Bill Laidlaw at the Piano, the Cardston Club led in several club songs. Roi Stone contributed a Piano Solo, and Paul Redd reported the Gymnasium Class organized and fathered by the Rotary Club, with a membership of 145 boys, all doing good work, and apparently interested in their classes.

The Ladies Aid furnished the usual splendid dinner, and a very enjoyable and profitable two hours was spent by the Rotarians. The Cardston Club are assured of a very hearty welcome here whenever any of them can attend and the local members will look anxiously forward to a meeting when Canon Middleton can be given more time to develop the very interesting talk on Indian Mythology which he started here Tuesday.

Every good day we have, is one day nearer spring. May we continue to have them.

The wind blew a gale for a few hours Wednesday during the middle of the day.

Several buyers of horses and cattle have been in the district during the past week.

See the "Wildcats" Saturday night. The Jacks are out to take them.

WILSON McCARTHY, FORMER LOCAL MAN, HEADS MOFFAT ROAD

Wilson McCarthy, son of the late Mayor Charles and Mrs. McCarthy, has been elected president of the Denver and Salt Lake Railroad, otherwise known as the Moffat Road. Mr. McCarthy is a former Southern Alberta cowpuncher. But he refused to remain a cow hand. He read law and in time went to Osgood Hall, Toronto.

Later he located at Salt Lake City, was admitted to the Utah bar, was elected a judge served in the State legislature, was named to the Reconstruction Finance Corporation, sitting on the board with General Daws and others. In recent years he has been comptroller of banks in northern California with headquarters at Oakland, and now the RCF has named him president of the Moffat road, which owns a lease on the famed Moffat tunnel and track, age which provides the only direct route through the Rocky Mountains west of Denver for transcontinental rail traffic.

AN ENVIABLE RECORD

The record of scrip in the Town of Raymond has been an enviable one. Without going into too much detail, the figures speak for themselves, and callously every citizen of the town of Raymond will appreciate what the Council has done in keeping the ship afloat, and in such time.

To carry on for three years without current bank loans, to decrease the indebtedness of Town and School by \$35,000.00 in times like we have experienced during the past few years, and to start the year 1935 with cash enough in the Bank to carry on and pay accounts as they come due, has been an accomplishment worth while of the Council and should make citizens of the Town feel good. Over \$51,000.00 in scrip has been issued in the past 3 years, taking the place of borrowings, and saving the Town a great deal in interest each year.

Probably this is enough regarding the facts and figures. Just for a moment or two, consider what facts have contributed to the successful use of this medium of exchange in the Town and district. Remember-

ing in the first place, that it is not legal tender, that it was of no value outside of Raymond, and that the Council had to be prepared to either redeem it in cash when redemption date came, or else accept it in payment of taxes or water rates. It readily appears that the whole scheme could easily have proven a huge joke, and been the cause of a great deal of dissatisfaction and disappointment.

But, instead, today it is still functioning without question, and to all purposes and intents is accomplishing its designs very well. This happy state of affairs is due to two very important facts, among many. In the first place, the Town Council have been very conservative in the issue of Scrip, keeping the issue well within the possibilities of their ability to negotiate in taxes and water payments. Without question here, it would have resulted in a catastrophe. Then, secondly, the business men of the Town have been very loyal in accepting the scrip, and Waterworks and other utility boards for them and the Town have been the same to the Council in payments of their accounts.

The results have been better for the business houses. The maintenance of services in our Town and School that would have been impossible without the use of Scrip, the reduction of our public debt, and a better condition all the way round. Because of these and other things that could be mentioned the use of Scrip has fully justified itself, and with proper appreciation to the instigators of the scheme for their work, we feel it is worthy of continued use, and even with increased

prosperity and more free flow of money, we see no good reason why the system should be scrapped at all. It will undoubtedly be the means of further clearing any delinquent taxes and water arrears, and will yearly add to the sound financial position of the Town as it has done in the past.

FAREWELL FOR WELDON BASCOM

A very well arranged and largely attended Farewell Party was held in the High School Auditorium Tuesday evening after Mutual in honor of Elder Weldon Bascom, a recently returned Missionary of the Raymond 1st Ward, who has gone on another short term mission for a period of five or six months.

When the Second Ward Mutual adjourned, nearly the entire crowd from there joined with the 1st Ward people in giving Weldon a good send off, and the evening was spent in program, dancing and refreshments. A collection was taken to help him on his way, and while no amount was stated, the ones present donated very liberally in this respect, and he received a nice sum.

SCOUT PROGRAM AT FIRST WARD

The Sunday evening program at the First Ward was under the direction of the Boy Scouts and they gave a very interesting program, directed by Scout masters Wilford VanOrman and Roy Woolley, showing a day in camp from Flag Break to Taps at night. Commissioner E. J. Fawns spoke of the pending visit of Lord Baden-Powell to Canada. Bert Boyson and Guv Wing, both Scouts, spoke on "First Aid," and "The Scout Law," respectively, and demonstrations, songs and games rounded out a very educational program.

A number on leaving expressed themselves as knowing more about Scouting after seeing the program, than they had ever known before.

THAT FIRST BRANCH BANK AND 500 MORE

The founders of the Bank of Montreal firmly believed in branch banking. Two weeks after opening the Bank in Montreal on November 3rd, 1817, the directors appointed an agent at Quebec. By the following June the agency was made an "Office of Deposit and Discount," and thus the first branch came into being. Two others soon were created—at Kingston and York (afterward Toronto).

Those early bankers sought to extend and perpetuate for the farmers and merchants, the benefits and stimulus of a branch banking system the worth of which had been abundantly proved in the British Isles.

Thus they introduced one of the elements of elasticity

for which the Canadian banking system has received so much praise.

Consistently, throughout the decades, the Bank of Montreal has added branches wherever business warranted, giving to new and growing communities the advantages of banking strength, ample facilities and sound management. Today over 500 branches are serving Canada. Each branch is the Bank of Montreal, with all the facilities and public service for which the institution is known.

From the first branch in Quebec to the most recent one opened, the spirit of the Bank of Montreal is expressed—and will continue to be expressed—in terms of useful banking.

WEEKLY LETTER

Sprouting Sets for Early Potatoes

New potatoes provide a welcome treat and the earlier potatoes are ready the more they are appreciated, especially when the old supply runs low and there is little left to pick from. New potatoes, ready for eating by the first of July, may be quite easily obtained by starting the sets now. Readers will be interested in the method used at this station.

An early variety such as Irish Cobbler is used and sets of about the size of an egg are selected. These are spread out in flats or on a bench in the greenhouse and care is taken to place the seed ends up. The sunlight causes the potatoes to turn a distinct greenish shade and with the warmth of the room sprouts develop in three to four weeks. In another two weeks or so, depending on temperature, these sprouts are from one-quarter to one-half inch long and the sets are

then ready for planting outside. To prevent the sets from drying and shrivelling too much they are sprinkled with water each day.

On the farm a greenhouse is seldom available and the use of a well lighted attic room is suggested where the temperature ranges from 50 to 65 degrees during the day and never drops to freezing. Warmth is needed for the sets to sprout and the sets need to be kept in a lighted room to produce strong, sturdy shoots that will not break off in planting. Temperatures much in excess of 65 degrees will force growth too much and produce weak sprouts that are not apt to grow when planted outside.

The sprouted potatoes are planted whole as the unbroken skin protects the tuber from rotting in the relatively cold soil. At this station they are put in about the middle of April or as early as the season will permit the planting of hardy vegetables.

Last year Irish Cobbler potatoes, started in the greenhouse early in March and plan-

ted outside the middle of April were ready for use on the last day of June while potatoes from unsprouted sets were not ready until July 10th. The ultimate yields in either case were not widely different but comparative yield samples collected on July 10th showed a yield of 11.86 tons per acre for the sprouted sets and 10.20 tons for the unsprouted sets. Similar results should be obtained on the farm even though some what longer than five or six weeks may be needed for starting the sprouts where it may be possible to maintain the temperature of the room up to 70 to 65 degrees most of the time.

Treating Cattle for Warble Fly Control

Warble fly control was discussed in a letter last November when it was pointed out that this insect, more commonly known as the "Heel Fly," which causes so much distress to cattle in summer, can be eradicated largely by destroying the larvae of the fly during the late winter or early spring when they are in the backs of the cattle. The treatment is simple, effective and inexpensive. The warble fly powder, containing Derris, is mixed with water at the rate of one pound to a gallon of water. This solution is simply applied to the backs of the cattle with a stiff brush when a large number of the cysts containing the larvae are showing openings through the hide. All the larvae do not emerge at the same time so that several treatments, usually four are necessary at intervals of about three weeks. The first application was made at this station this year the first week in February, which is a month earlier than some have recommended. The important thing is to make the first application as soon as a large number of cysts are open.

Miss Rhea Walton, a bride-elect of next month, is spending the week with relatives and friends here.

Madame Helena Rubinstein

REVEALS THE WAY TO
BEAUTY
Beauty is an accomplishment
It can be achieved at any age.
This is the dictum of Helena
Rubinstein, noted beauty sci-
entist, who has studied every type
of skin in every climate.
With the sole purpose of
helping women to develop per-
sonal loveliness right in their
own homes, Madame Rubinstein
has written a series of articles
on the subject, "The Way to

Beauty."
She is an international figure
famous for her collection of mod-
ern art and jewelry. Her sci-
entific beauty knowledge has
made her the outstanding auth-
ority on beauty culture today.
Her activities have led her into
every sphere where women have
achieved distinction. The out-
standing personalities of our
day have come to her for ad-
vice, including queens, princess-
es, artists, actresses, writers,
sportswomen and well-known

News Notes

John S. Smith, Cardston, was
a Raymond and Stirling visitor
on Tuesday last.

With the Factory run over,
quite a number have nothing
to do, and unfortunately have
all day to do it in.

How long has your man been
working for you? inquired
Farmer Bentover.

About two hours, replied
Farmer Fumblegate.

Why, I thought he had been
here longer than that.

He has, He's been here two
months.

John Blackmore was at
Mayburt Tuesday night, and at
a school 6 miles north of Pic-
ture Butte Monday night, speak-
ing on Social Credit. John's
services are very much in de-
mand, and he is making aspen
did impression wherever he
goes. Houses in Cardston and
Mountain View were packed
the last of the week.

Thirteen Years of Progress

ON the third of February, 1922,
the first three-element vacuum
tube made in Canada was manu-
factured in the Montreal Plant of
the Northern Electric Company,
Limited. This was a repeater tube
for telephone use, and was followed
in May by the "Penalt", the radio
receiving tube known from coast to
coast, and known as the "Necro-
nautic Battle of the Ages". Today,
one hundred and forty standardized
types of radio vacuum tubes are
manufactured in Canada, not to
mention those used for telephone
communication and other purposes.

Above, the peanut tube is shown
beside a ruler for comparison. The
bottom picture shows H. A. Robin-
son, Northern Electric Radio En-
gineer, showing to a fair visitor one
of the new 35,000 watt water cooled
transmitting tubes used in Canada's
newest and most powerful Broad-
casting Station CBY in Winnipeg.
This tube equals the combined out-
put of more than 12,000,000 peanut
tubes; which serves to illustrate the
gigantic steps which science has
made in the past thirteen years.

**Senior Basketball
Schedule**

February—
22—Wildcats at Lethbridge.
23—Wildcats at Raymond.
Printers at Varsity.

March—
2—Printers at Wildcats.
Raymond at Varsity.
4 Raymond at Printers.

sum of money. Inquire at Rec-
order Office.

FOR SALE—Good building
lot, close in. See Maurice Coop-
er for particulars.

News Notes

D. O. Wight, Editor of the
Cardston News, was a caller at
the Recorder Office last Tues-
day.

Art Jensen has raised his
house 20 inches or so, ready for
a basement, and is bricking
in the space between the cement
and the rest of the house. He
will only be about one foot un-
der the ground, and hopes to
have his basement dy.

A well known London bank
manager deservedly popular as
a raconteur, considers the fol-
lowing as one of the best in
his repertoire:

Two lunatics were airing
their grievances in the asylum
grounds.

Said one: "It's an outrage.
I've been in here ten years, and
I'm as sane as anybody."

"So am I," chimed in the oth-
er, "and I've been here for 12
years. Let's go and tell the gov-
ernor."

"Wait a minute," said the
first, "I'm going to test you
first."

Then, putting his hands be-
hind his back, he said, "What
have I got in my hand?"

"A tramcar," promptly an-
swered the second.

"You cheat," was the heated
retort. "You saw me pick it up
—Exchange."

HOLIDAYS IN 1935

New Year's Day, the first
holiday in any year, already has
been enjoyed. Public holidays
(some of them only bank hol-
idays to be looked forward to
are these:
Good Friday, April 19.
Easter Monday, April 22.
Victoria Day, Friday, May 24

King's Birthday, Mon., June 3
Dominion Day, Mon., July 1.
Civic Holiday, Mon., Aug. 5.
Labor Day, Mon., Sept. 2.
Thanksgiving Day, Monday,
Oct. 7 (or 14).
Xmas, Day, Wed., Dec. 25.

It is not how many years
we live, but what we do with
them.

Every Day

Oil Wells are drilling through to pro-
duction. Ours may be next.

**Why not a Small Block
of this Stock Today?**

Applications will be taken at the Recorder Office
